

SERIAL No.: 09-525,176

INVENTORS: VASILEIADIS ET AL.

FILED: 03/14/00

Substitute for Form PTO-1449 (Information Disclosure Statement)

*Please Note: Form PTO-1449 was not available in the PTO Web site for downloading.

U.S. PATENT DOCUMENTS

Document number	Date	Name
JW 4,713,234	12/1987	Weirich et al. 423-648 R
JW 4,810,485	3/1989	Marianowski et al. 423-648. 1
JW 5,229,102	7/1993	Minet et al. 423-652
JW 5,637,259	6/1997	Galuszka et al. 252-373
JW 5,639,431	6/1997	Shirasaki et al. 422-212
JW 5,658,681	8/1997	Sato et al. 429-13
JW 5,861,137	1/1999	Edlund et al. 423-652
JW 5,938,800	8/1999	Verrill et al. 48-127.9

OTHER DOCUMENTS

(copies are enclosed with the application except for Ref. 2)

- JW 1.-Alternative generation of H₂, CO and H₂, CO₂ mixtures from steam-carbon dioxide reforming of methane and the water gas shift with permeable (membrane) reactors, S. Vasileiadis et al., Chem. Eng. Comm., Vol. 176, pp.247-252, (1999).
- ~~2.-Environmentally benign hydrocarbon processing via single and integrated permreactors, permeators, S. Vasileiadis et al., in Reaction Engineering for Pollution Prevention, Elsevier Science Eds. (2000).~~
- JW 3.-Reactor-Membrane permeator cascade for enhanced recovery and production of H₂ and CO₂ from the catalytic methane steam reforming reaction, Z. Ziaka et al., Chem. Eng. Comm., Vol. 156, 161, (1997).
- JW 4.-Novel reactor-membrane permeator methane-steam reforming process for enhanced recovery of H₂ and CO₂, Z. Ziaka et al., 5th World Congress in Chemical Engineering, Symposium Series, San Diego, CA July (1996).
- JW 5.-N. Itoh et al., "Development of a novel oxidative palladium membrane reactor", AIChE Symp. Ser., No. 268, Vol. 85, 10 (1989).
- JW 6.-R. Zhao et al., "Studies on palladium membrane reactor for dehydrogenation reaction", Sep. Sci. & Tech., 25(13-15), 1473 (1990).
- JW 7.-M. Oertel et al., Chem. Eng. Technol., 10, 248 (1987).
- JW 8.-Introductory permreactor, permeator hydrocarbon, carbon oxide processors for externally reformed-(gas phase) fuel cell systems, S. Vasileiadis and Zoe Ziaka, submitted for publication, Aug. 1999.
- JW 9.-Polymer membrane reactors for enhanced hydrocarbon conversion and upgrading, S. Vasileiadis and Zoe Ziaka, Invention Disclosure Document #414880, marked 3/6/1997.
